

Prakash Kumar

Full Stack Developer

+91-9771259904 | prakashh.official221@gmail.com | heyprakash.me | [GitHub](#) | [LinkedIn](#)

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Shadcn UI

Backend: Node.js, Express.js, Prisma

Database: MongoDB, PostgreSQL

Tools: Git, GitHub, VS Code, NPM, Vercel, Figma

PROJECTS

Tamrix – Productivity Workspace | *Next.js, TypeScript, MongoDB, Better Auth, Razorpay, Shadcn* [Live](#) | [Code](#)

- Built a **full-stack SaaS productivity platform** featuring **focus sessions**, Pomodoro, tasks, notes, reminders, analytics, and activity heatmaps within a unified workspace.
- Implemented secure authentication with **Better Auth**, **subscription-based access control**, and **Razorpay payment integration** for Pro and Premium plans.
- Designed **scalable backend APIs** with **MongoDB**, optimized dashboard analytics and session tracking, and enforced **feature-based access control**.

Zyntre – Bill Splitting Tool | *Next.js, NextAuth, Tailwind CSS, MongoDB, Shadcn, Node.js* [Live](#) | [Code](#)

- Built a **full-stack expense tracking application** supporting **group-based bill splitting**.
- Implemented secure authentication using **NextAuth** and designed **RESTful APIs** for data handling.
- Developed a **responsive UI** with optimized state management for seamless user interaction.

Wryto – Blog Platform | *Next.js, Tailwind CSS, MongoDB, NextAuth, Express, Node.js* [Live](#) | [Code](#)

- Developed a **full-stack blog platform** with markdown support and dynamic content rendering.
- Built an **admin dashboard** for **CRUD operations** and content management workflows.
- Implemented **authentication**, **backend APIs**, and **MongoDB integration** for scalable content handling.

Trivia – Travel Booking Platform | *React, Node.js, Express.js, MongoDB, Tailwind CSS* [Live](#) | [Code](#)

- Engineered a **full-stack travel platform** with dynamic trip listings, filtering, and detailed pages.
- Designed **backend APIs** for trip management, user data, and inquiry handling.
- Built an **admin dashboard** to manage trips, availability, and user interactions.

User Management Backend | *Node.js, Fastify, TypeScript, PostgreSQL, Prisma* [Live](#) | [Code](#)

- Developed a **production-grade REST API** with **JWT authentication**, **role-based access control (RBAC)**, and session management.
- Implemented advanced features including **2FA**, **audit logging**, and secure token-based workflows.
- Designed a **scalable backend architecture** using **Fastify**, **Prisma ORM**, and **PostgreSQL**.

OPEN SOURCE CONTRIBUTIONS

- **Apache Software Foundation:** Contributed **24** merged pull requests across multiple projects.
- Contributed to open-source projects including **Material UI**, **Better Auth**, **Tiptap Docs**, and others.

EDUCATION

Galgotias College of Engineering and Technology

Bachelor of Technology in Electronics and Communication
